And I'm rollin' with slime (Slime, slime)  
In the streets to survive  
Set some bricks, time to time (Time)  
Took a step from the crime  
'Cause there's too much at stake (Stake)  
And I ain't in my prime  
And I'm missing for time  
Pull up with the watch and it got the wrong time, oh my (Oh my)

Pull up with the watch and it got the wrong time  
I do them a line, man, it went past the line  
They think that you're weak when you're being so kind  
My mind on my business, my business, I mind (Mindin' my business)  
Yeah, I'm mindin' my business, my business, I mind  
(I'm mindin' my business, my business, I mind)  
I'm mindin' my business, my business, I...

I hit up the country to bill up a line  
I step on the bench with a couple of slimes  
It took me a minute, it took me some time  
I don't want that pussy if it isn't mine  
All of that Cali, I put in the grinder  
All of the nights that I spent on the grind  
Give me that pussy the way that I like it  
Give me that pussy the way that I like

I polish myself so I sit and I shine  
I bought Cartier so I sit and I shine  
They ask if I'm good and I say "I'm alright"  
But deep in my soul, man, I know I ain't fine  
Deep in my mind, man, I know I ain't fine, oh my  
I smoke me some Skittles, I'm lost in my mind, tonight

And I'm rollin' with slime (Slime)  
In the streets to survive (Survive)  
Set some bricks, time to time (Time)  
Took a step from the crime  
'Cause there's too much at stake (Stake)  
And I ain't in my prime (Prime)  
And I'm missing for time  
Pull up with the watch and it got the wrong time, oh my

And all of that money is floodin' the safe now  
Hustling back from the playground  
Look how they watchin', they staring now  
I'm high, why they shootin' my plane down?  
Walk around, fuck on her face now  
Uber to pick up the takeout (Yeah, yeah, yeah, yeah)  
Cash all over the safe house  
Gas, it got me all spaced out (Gone)

Load up some money through hair salons

I always knew how to take a loss  
My family's always been my rock  
I did the most when I wanted to make some pounds  
Relied on nobody 'cause God is my saviour  
Now I'ma reap the rewards from my labour  
I keep on smoking, I got no behaviour  
Smoking inside, I got no behaviour (Smoking, I'm smoking)

I got no behaviour (Nah)  
I came with the ah (Ice)  
I still use a pager  
And I got the... (Ice)  
My arm is the lake, yeah  
Can't feed you no (Rice)  
For you, I can't cater

And I'm rollin' with slime (Slime)  
In the streets to survive (Survive)  
Set some bricks, time to time (Time)  
Took a step from the crime  
'Cause there's too much at stake (Stake)  
And I ain't in my prime (Prime)  
And I'm missing for time  
Pull up with the watch and it got the wrong time, oh my
