

## aTENTion

M.I.A.

The fullest extent of my intent is to let you know what is important

My existence is militant cause my content bangs like it's potent

Resistant to the pollutant, never hesitant, always consistent

I back it up, yeah I'm very blatant

Don't try to copy this cause I patent

Runnin on the streets causing tensions

Running through, running through, running through

Runnin on the streets causing tensions

Hey, hey, hey - attention!!!!

Hey, hey, hey - attention!!!!

Got to see my life from a distance

For instances, my friends say I act tense

I'm a refugee from a yellow brick tent

Past present and future

Our borough is long like a sentence

Its intent bitches its instance

We live with distance to present

For attention about my tent

Things fall on our heads like we're new

So don't drop that ball on that butt

We're aliens but we're not mutant

We tent out of tent - account

There's 36 chambers in my Wu tent

We slang tent in benne tent

While you dance in your Louboutent

We be makin tent out ya curtent
