

# Finally

M.I.A.

What haters say about me don't worry me  
I keep it moving forward to what's ahead of me  
You gonna see I'm not gonna waste energy

Cause I'm free and I'm a freak  
All the people I love I try to keep  
We get deep  
Keep it street  
And we're never gonna stay asleep  
Finally

What haters say about me don't worry me  
I keep it moving forward to what's ahead of me  
You gonna see I'm gonna be  
And you're gonna remember me

I'm someone's shot of whiskey  
Not everyone's tea

Cause I'm free and I'm a freak  
All the people I love I try to keep  
We get deep  
Keep it street  
And we're never gonna stay asleep  
Finally  
What haters say about me don't worry me  
I keep it moving forward to what's ahead of me  
You gonna see I'm gonna be  
And you're gonna remember me

Underneath my trouble  
I'm gonna find me the treble  
And underneath my case  
I'm gonna find me the bass  
You get through  
You get truth  
And that's how it's gonna be

Cause I'm free I'm a freak  
I can see what's real and fantasy  
What you believe you gotta see  
Life on the planet's university

Underneath my trouble  
I'm gonna find me the treble  
And underneath my case  
I'm gonna find me the bass  
You get through  
You get truth  
And that's how it's gonna be  
Finally

I'm free and I'm a freak  
All the people I love I try to keep  
We get deep  
Keep it street  
And we're never gonna stay asleep  
Finally what haters say about me don't worry me

I keep it moving forward to what's ahead of me  
You gonna see I'm gonna be  
And you're gonna remember me

There's nothing in this life that's guaranteed  
That's why we get high on reality  
Memories and families  
Work and money and stay happy  
Finally

Life on the planet's university  
You get stronger in adversity  
What you mean it's easy  
Life's just a bitter sweet symphony
