

GALAXY

M.I.A.

Siri, do you know the future?
Siri: I don't have an answer for that

Direct that energy don't be trolling
When I hit my stride I'm gonna go in
Yeah, I got the hammer, Thor and Odin
Loki tryna get the mode I'm in
I'm a crouching tiger
And the dragons hiding
It's a full moon and the wolves are howling
The greatest story is not to falling
It's how we get back up and keep on moving

This is you and me up in the galaxy
Floating round we defy gravity
Up in the sky there's our memories
We can bring them back to reality
This is you and me up in the galaxy
Floating round we defy gravity
Then we connect through the energy
Yeah I'm getting love, no money

Queens and kings
Brown girl sings
Boys in the back by the tarpaulin
Who's hiring? What they firing?
The city's full a sharks swimming with the dolphin
It's time for the magic like I'm Merlin
I've been chopping it and kicking it like a Shaolin
Darlin, the fun is always calling
And my calling is always to stop you falling
If you do pick you up and keep it moving
It's only glass on the ceiling
It's not cement, don't get stuck in feelings

This is you and me up in the galaxy
Floating round we defy gravity
Up in the sky there's our memories
We can bring them back to reality
This is you and me up in the galaxy
Floating round we defy gravity
Then we connect through the energy
Yeah I'm getting love, no money

Ready ready ready ready everybody?

Steady steady steady steady

This is you and me up in the galaxy
Floating round we defy gravity
Up in the sky there's our memories
We can bring them back to reality
This is you and me up in the galaxy
Floating round we defy gravity
Then we connect through the energy
Yeah I'm getting love, no money

Life changing, it's a strange thing
Are you ready for what the time gon' bring?
Life changing, it's a strange thing
Are you ready for what this future brings?

I am Ohmni
System above the satellites
Be free to speak
Free to be
Free to experience
And be free to seek
