

Goals

M.I.A.

One..

When we come through we fly as fuck though
I can mess with you but what for
If I play with you it'll be a draw
Match made in heaven who's keeping score
Everywhere, every door there's nowhere where we won't go
Every step, every blow we're always going to get goals
Relationship goals are you and me
Fighting H-A-T-E with L-O-V-E

Ride of your life you better bring your GoPro
Don't need no pros 'cause we're gonna go slow
Love is the answer what's the question I don't know
Staring at the wall and I'm waiting for the call

Pick up your receiver
I'll make you a believer
Pick up your receiver
Pick up your receiver
I'll make you a believer
Pick up your receiver

It started when you asked me what are those
I looked at you and I was glad you don't know
I started walking by and it was special
That little dance you did was the best show
I drove to the store when my fuel's low
I'm still heading somewhere and it feels raw
Baby when we play it'll be a draw
A match made in heaven who's keeping score

Ride of your life better bring your GoPro
Don't need no pros 'cause we're gonna go slow
Love is the answer what's the question I don't know
Staring at the wall and I'm waiting for the call

Pick up your receiver
I'll make you a believer
Pick up your receiver
Pick up your receiver
I'll make you a believer
Pick up your receiver

Cry me a river, cry me a river
Would you let me flow or set me bon voyage
Gonna need you more like the ground I wear
We can make a pair like breath and the air
Go to the top or be low
Tastes better than any combo
Xs and Os playing tic-tac-toe
We best friends, I guess so

Pick up your receiver
I'll make you a believer
Pick up your receiver
Pick up your receiver

I'll make you a believer
Pick up your receiver

Pick up your receiver
I'll make you a believer
Pick up your receiver
Pick up your receiver
I'll make you a believer
Pick up your receiver

Pick up your receiver
I'll make you a believer
Pick up your receiver
Pick up your receiver
I'll make you a believer
Pick up your receiver
