Jesus!

I don't walk alone  
I knew you'll come along  
Nothing is wrong when I believe  
It keeps me strong when I am in need  
When I got that feeling  
And I'm climbing up a mountain  
And your words, I hear calling  
And the hustle keeps me going

Better knock in the dark to your light  
To follow I don't need proof  
Trees, trees, how did this take root?  
There is beauty in everything you do  
Have what I need for fuel to keep me going on a path that's real  
When I feel things I stay still and I lose things and I find self  
Wish good health and food wealth  
I hope spirits strong hard bells-

There is a tempo [?]  
A devotion come in compact  
I surrender he puts me on track

I don't walk alone  
I knew you'll come along  
Nothing is wrong when I believe  
It keeps me strong when I am in need  
When I got that feeling  
And I'm climbing up a mountain  
And your words, I hear calling  
And the hustle keeps me going
