

Safe

M.I.A.

It's not safe if I don't pray
Then I'm prey if I don't pray for a week
Then I'm weak, it's peak
Then I'm prey
To haters when I sleep

Demons try to show up when I try to get a glow up
And I'm thankful to my haters 'cause they do make me grow up
Woke sleep, break free, two, three, straight shot
Kill fear, fünf here, now I'm talking German, ho

Lyrics I spray, spray kinda like a pistol
When I spray, I pray, pray, Holy spirit, break through
Many are called but you looking at a chosen few
Let's rebuke when I speak the truth
The demons start running like I'm about to shoot
Check it out, boo, like you look cute
Many are call but who's the chosen few
Let's rebuke when I speak the truth

I hop up off the corner burner, gone are days a sinner win
Every time I burn a demon, running on adrenalin
I hop up off the corner, I was mixing with some weak hoes
Every time I see 'em, it's where demons catch there meat from
Negativity grows on my street I see a crow
If it's all love then I see a dove
Grateful, not regretful, thank you, not a great fool
Thankful to my haters when I say, 'Hashu"

Lyrics I spray, spray kinda like a pistol
When I spray, I pray, pray, Holy spirit, break through
Many are called but you looking at a chosen few
Let's rebuke when I speak the truth

Straight quotes like quartz, you put your faith in crystals
Here's a quote, I put my life in Jesus Cristo
Jesus let 'em know what I'm really here for
I'm the type of woman many men really pray for
I know I've been missing, 'bout to change, that's a blessing
Lessons and I've lost many fans but fuck it, keep 'em guessing
It's peak, stay out of my face
I'm not in a mercy phase, covered up head to toe in Ohmni
In the last days, out means praise, God sent, light ways
Witches can't find me even if they using ways

Let's rebuke when I speak the truth
The demons start running like I'm about to shoot
