

# Can't Hold On

Mêlée

Someone cries and it washes the street with tears  
But when they are mine, they collect in my head for years  
Rain or shine, still I'm standing on all I said  
'Cause it's in my soul, carry on when the feeling's dead

But if you can't hold on  
Let it go and come back in your heart  
And if you can't hold on  
Maybe it's not time for you  
And if you can't hold on  
On your very last try  
I'll be there in the morning to pull you through

Someone dies late at night and I never know  
And even if I did, so afraid of the face I'd show  
I feel trapped and enslaved to this dark contrast  
Need a feeling now, give me something that's going to last

I want to be free  
I want to be free  
I want to be free  
Yes, I want to be free  
I want to be free  
Yes, I want to be free  
Oh, I want to be free  
Yes, I want to be free

You say you want to be free  
But you can't fool me  
You say you want to be free  
Oh, but you can't fool me  
You say you want to be free  
But you can't fool me  
You say you want to be free  
Oh, but you can't fool me

Oh, and if you can't hold on  
You can't hold on (Can't hold on)  
You can't hold on (Can't hold on)  
I'll be there, I'll be there

Oh, and if you can't hold on  
Let it go and come back in your heart  
And if you can't hold on  
Maybe it's not time for you  
And if you can't hold on  
On your very last try  
I'll be there so you know that you're not alone
