

## What Good Is Love (Without You)

Mélée

Castles, standing by the darkening sea  
Once upon a time a throne of peace for you and me  
And those days, winter could reveal your breath  
Candle in the dark could keep the loneliness away

Why take on all the world  
When you've got someone at home?  
Now I can see what you mean to me

What good is love without you?  
What good is all the world without oxygen for bloom?  
The silver lining, it ain't worth your gold  
What good is love without you?

Cries came, calling me to enter the fight  
Though we know sometimes the wrong can cover up the right  
And those days, winter could reveal your breath  
Candle in the dark could keep the loneliness away

Why take on all the world  
When you've got someone at home?  
Now I can see what you mean to me

What good is love without you?  
What good is all the world without oxygen for bloom?  
The silver lining, it ain't worth your gold  
What good is love without you?

I've been sitting alone  
Next to an empty throne  
Where has my queen gone?

Wake up dreaming on a 1 AM flight  
Hoping that I might just get to see you one more night

What good is love without you?  
What good is all the world without oxygen for bloom?  
The silver lining, it ain't worth your gold  
What good is love without you?  
What good is love without you?  
What good is love without you?
