

# THE DRIVER

Måneskin

Hot like summer  
Give me your eyes, don't twist knife  
Put me under your spell  
Then hide the crime

Lay your soul 'til it's naked  
Bite my lip 'til you break it  
Steal my heart, get it wasted  
Tied to this love

If you're gonna set fire to the night  
Baby, let me be the lighter  
If you're already high and you wanna fly  
I'll be the hit that takes you higher  
If you wanna love when you touch the sky  
You can be my midnight rider  
If there's nowhere to go and you wanna go wild  
I wanna be the driver

Make me helpless  
Tie me down and use your rope  
Made of velvet  
Then turn the lights down low

Lay your soul 'til it's naked  
Bite my lips 'til you break it  
Steal my heart, get it wasted  
Tied to this love

If you're gonna set fire to the night  
Baby, let me be the lighter  
If you're already high and you wanna fly  
I'll be the hit that takes you higher  
If you wanna love when you touch the sky  
You can be my midnight rider  
If there's nowhere to go and you wanna go wild  
I wanna be the driver

If you're gonna set fire to the night  
Baby, let me be the lighter  
If you're already high and you wanna fly  
I'll be the hit that takes you higher  
If you wanna love when you touch the sky  
You can be my midnight rider  
If there's nowhere to go and you wanna go wild  
I wanna be the driver
