

Magic Trick

M. Ward

People come, people go
Sometimes without goodbye, sometimes without hello
She's got one magic trick
Just one and that's it
She disappears

It's like: now you see her, now you don't
You think you're gonna get to know her, now, well you
won't
She's got one magic trick,
Just one and that's it
She disappears

It's like: easy come, easy go
Sometimes without goodbye, sometimes without hello
She's got one magic trick
Just one, and that's it
She disappears
