

# Temptation

M. Ward

Temptation step up to the mike  
Temptation know just what you like  
Temptation eyes explode with a flash like falling stars  
Temptation's talking to my heart

Temptation won't give you a chance  
Temptation wanna see if you can dance  
Temptation won't take no for any one's response  
Temptation I infiltrate your song  
And the last time I tried to leave this club  
I said I can't dance no more  
Temptation dragged me right across the floor  
Yeah the last time I tried to leave this club  
I said I can't dance no more  
Yeah temptation dragged me right across the floor

Temptation step up to the mike  
Temptation know just what you like  
Temptation eyes explode with a flash like falling stars  
Temptation's talking to my heart  
Temptation's talking to my heart  
Temptation's talking to my heart
