

Alone, twenty millions years from my place.  
A slide, on the starlight.  
Watch out, a new planet right on my trail!  
The space, oh oh it's mine!  
Oh oh!

I'm lost, in an infinite night trip.  
The sun, could make me blind.  
I wish, I could bring a girl to my ship.  
And fly, her hand in mine!  
Oh oh!

Alone, twenty million years from my place  
(Is the dream over?)  
The space, oh oh it's mine!
