

## I Need You

M83

Have you ever had the feeling  
That we're not alone?  
All the calls I've been receiving  
They are not from home  
Going down the dusty roads  
We can't see it now

I need you

There's a reading on the wall  
of the things that I have done  
if I belong to leave it all  
find a way to take me

See, we're not alone  
Just the colors of the world

Sitting all alone
