

## Radar, Far, Gone

M83

Everyone already knew your name  
It's written in the clouds  
It's like you talk to them in dreams  
It's like you know our signs, right?

Keep looking  
Stand by  
Cross a blue ridge  
Slow car

You don't have to show your face  
We only look inside, you see  
It's like you only talk in tears  
It's like you know our fears, right?

Stop looking  
Come by  
Is it our last chance  
To be friends?

Ahh, ahh  
Ahh, ahh  
Ahh, ahh  
Ahh, ahh  
Ahh, ahh  
Ahh, ahh  
Ahh
