

## Sunny Boy

M83

To which system does she belong?  
Is she the girl called sunny boy?

Have you ever believed in?  
I am star-struck  
Cosmic adrenaline  
She's young and fierce  
Have you ever kissed?  
And I like her  
Hmm, maybe I love her

Is that the same moon we love?  
Why does this girl burn?  
So long ago when we were born  
A timeless sun, sun  
Sun, love

Have you ever believed in?  
I've been star-struck  
Cosmic adrenaline  
She's young and fierce  
Have you ever danced?  
And I love her  
With a tear falling

Have you ever done it?  
Danger star-struck  
Cosmic adrenaline  
Such a radiant queen  
Have you ever danced?  
Hope she hits me  
With a tear falling  
Oh I love her

Can we just make it last?  
Can we just make it last?  
Can we just make it last?
