

Low Key

Mabel

We hang out three days from the first date
My girls say it's so unlike me
But I'm gonna have to leave
'Cause I've got things to do, things to do
I promise that it's not what you're thinking of
I can't afford to spend all my time on us

Oh, you got it in your head that I'm using you
But I really do enjoy the other things we do, oh
(And you can use me back)
And if this is your idea of me using you
Go ahead, get me back, you can use me too, oh

I thought I told you that
I don't want no pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key
No pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key

Don't think it's over
It doesn't mean that I want you
If you wanna be with me
Baby, we gotta keep it low key

We play it cool, all day Monday
It's not the time of the week to be talking
Don't take it bad, if I'll say "Not today, not today"
I just need some time looking out for me
It's not that I don't like your company"

Oh, you got it in your head that I'm using you
But I really do enjoy the other things we do, oh
(And you can use me back)
And if this is your idea of me using you
Go ahead, get me back, you can use me too, oh

I thought I told you that
I don't want no pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key
No pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key

Don't think it's over
It doesn't mean that I want you
If you wanna be with me
Baby, we gotta keep it low key

How'd you like that encounter?
And before it's like

So how come you find yourself
Still by my side?
Your phone kept ringing
'Cause you should've been at home
Bur you're still in my bed

I thought I told you that
I don't want no pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key
No pressure
Appreciate the effort
But if you wanna be with me
Baby, we gotta keep it low key

Don't think it's over
It doesn't mean that I want you
If you wanna be with me
Baby, we gotta keep it low key

Don't think it's over
It doesn't mean that I want you
If you wanna be with me
Baby, we gotta keep it low key
