

# Red Flag

Mabel

You had me in a blind spot  
Where the good in you is all I saw  
Black magic that you cut  
Too many signs and I ignored

You never me took me to your mama home  
That's a red flag, baby, that's a red flag  
As always someone blowing up your phone  
That's a red flag, baby, that's a red flag

And when it got too many secrets  
They told me that's a red flag, baby, that's a red flag  
Dissapearing at the weekend  
That's a red flag and, baby, you know that  
When it's intuition  
But it causes you crazy  
And you just won't listen  
And it's moving shady  
Give him big man talk, now  
And listen to me ladies  
That's a red flag, baby, that's a red flag, oh  
That's a red flag, baby, that's a red flag  
That's a red flag, baby, that's a red

Taking calls and going outside  
Always a reason why you have to go  
You got no shame and too much pride  
I saw her Louis bag in your photo

We never stayed over at your place  
That's a red flag, baby, that's a red flag  
And those things you can't say face to face  
That's a red flag, baby, that's a red flag

And when it got too many secrets  
They told me that's a red flag, baby, that's a red flag  
Dissapearing at the weekend  
That's a red flag and, baby, you know that  
When it's intuition  
But it causes you crazy  
And you just won't listen  
And it's moving shady  
Give him big man talk, now  
And listen to me ladies  
That's a red flag, baby, that's a red flag  
That's a red flag, baby, that's a red flag  
That's a red flag, baby, that's a red flag

Now I see him from a mile off  
And I thank God that you hurt me bad  
Now I'm hearing through to the wise talking  
I stay strong and I watch my back  
Oh, you so bad, my  
Don't think you are right  
This how you've been all your life  
All your life, all your life  
You don't know loving

But you taught me something  
At least I know

When it got too many secrets  
They told me that's a red flag, baby, that's a red flag  
Dissapearing at the weekend  
That's a red flag and, baby, you know that  
When it's intuition  
But it causes you crazy  
And you just won't listen  
And it's moving shady  
Give him big man talk, now  
And listen to me ladies  
That's a red flag, baby, that's a red flag  
That's a red flag, baby, that's a red flag  
That's a red flag, baby, that's a red flag
