

## Take Your Name (Interlude)

Mabel

I was ready to take your name  
I was ready to take your name  
I was ready to switch to switch my initials 'round  
And merge them into yours  
I was ready to take your name  
You could say I got carried away  
For worse and better days  
To have and hold forever more  
Forgive me for being so sure

What a shame, baby  
What a shame, baby  
I was ready to take your name  
Forgive me for being so sure  
What a shame, baby  
What a shame, baby  
I was ready to take your name  
Forgive me for being so sure
