Mabel

You don't know the half of it, I ain't no sweet
Soon as I get comfortable, can't hide my freak
If you let me put it into motion
I can take the wheel for the both of us
Sleep over, you stay the night, I ain't tryna sleep
Said you don't do none of that, now you on your knees
If you turn me on (Oh, my God)
I can take the wheel for the both of us

Know you think you know me so much better than you do
No, you won't believe it when I get you in the mood
Gonna turn you out, boy
Show you what I'm about, boy
Have you sayin'

Hey-oh-ayy, oh-ayy (Hey-oh-ayy, oh-ayy)
I can't keep away from you
Put me in my place (Put me in my place)
I be up in chains for you
To do what you want to do
And I'll get what I want from you

Contact make your eyes roll back
I said, confidence even when I'm on back
So, don't you worry, I'll stay on it
'Cause I ain't like all them good girls you've had before

Know you think you know me so much better than you do
No, you won't believe it when I get you in the mood
Gonna turn you out, boy
Show you what I'm about, boy
Have you sayin'

Hey-oh-ayy, oh-ayy (Hey-oh-ayy, oh-ayy)
I can't keep away from you
Put me in my place (Put me in my place)
I be up in chains for you
To do what you want to do
And I'll get what I want from you (I'll get what I want from you)
Hey-oh-ayy, oh-ayy (Hey-oh-ayy, oh-ayy)
I can't keep away from you
Put me in my place (Put you in your place)
I be up in chains for you
To do what you want to do (To do, do what you want to)
And I'll get what I want from you (I'll get what I want from you)

(Oh) The way I'm 'bout to put it on you
(Oh) The way I'm 'bout to put it on you
I said, to do what you want to do
The way I'm 'bout to put it on you
