

# When The Party's Over

Mabel

When the party's over, it's quarter to four  
I took off my heels 'cause I can't dance anymore  
When the party's over, forgot why I came  
Went for the thrill but I left feeling the same

When the party's over  
When the party's over

When the party started, I was doing my thing  
Was lost in the music till I found me again  
When the party started, I was top of my game  
But now that it's over, I don't feel anything

When the party's over  
When the party's over  
When the party's over  
When the party's over

So where do we, where do we go?  
'Cause we're not 17 anymore  
The drink in your cup sinking in  
It's all over before it begins

When the party's over  
When the party's over

There's no music playing, I'm outside my house  
Smoking a cigarette just so I stay out  
It's early AM, kids are going to school  
I'm still in my party dress, I look like a fool

When the party's over  
When the party's over  
When the party's over, ah-ah  
When the party's over

So where do we, where do we go?  
'Cause we're not 17 anymore  
The drink in your cup sinking in  
But it's all over before it begins

When the party's over, ah-ah  
When the party's over, ah-ah  
When the party's over, ah-ah  
When the party's over

When it's all over (When it's all over)  
When it's all over (When it's all over)  
When it's all over  
When it's all over  
All over

When it's all, when it's all over  
When it's all, when it's all over  
When it's all, when it's all over  
Yeah
