

## Almost Home

Mac Ayres

Couldn't hear you with my head in the clouds  
Appreciate it if you holding me down  
But I just wanna let things go tonight  
Came back just to make things known that  
This ain't nothing that you seen before  
Could be my last goodbye  
I guess some things are only right

Baby, tell me who's that in my mirror 'bout time that I figure  
it out  
Some things could be clearer but I guess that's none for fussin  
g about  
Who's that in my mirror, can't seem to recognize him  
Who's gonna go remind him what's been goin on? What's been goin  
on?  
Baby all that I know is, oh  
Something feels wrong  
Something bout this place  
Won't stay too long  
Think I gotta get gone tonight  
Something feels wrong  
But I'm almost home  
Something feels wrong  
Something bout this place  
Won't stay too long  
Think I gotta get gone tonight  
Something feels wrong  
But I'm almost home

Baby, tell me who's that in my mirror 'bout time that I figure  
it out  
Some things could be clearer but I guess that's none for fussin  
g about  
Who's that in my mirror, can't seem to recognize him  
Who's gonna go remind him what's been goin on? What's been goin
