

# Caught Up

Mac Ayres

Why you talking if you ain't got shit to say to me?  
Cause in the morning I'ma be smiling  
I've been running with no damn place to go  
What we're doing that's all I'm trying to know

Paranoia, who would think I know ya  
I've been looking over the shoulder, yeah (Looking over my shoulder yeah)  
Holy roller ain't a thing to show for it  
Have you been looking over my shoulder (You been looking)

I think I'm back on my way down, yeah  
To the Earth, to the Earth  
Now baby go let your hair down (Let your mother fucking hair down)  
If you got some, yeah (If you got some go do it, go do it)

Just can't get caught up  
Won't leave me too much while I'm in this life  
This might be my crush always think about it too much  
In the evening time, yeah  
I just can't get caught up  
Caught up  
Won't leave me too much  
Too much  
Just can't get caught up  
Caught up  
Won't leave me too much  
Too much

Yeah, rusted rover  
No roof to hold up, yeah  
Where you been living?  
Said it's nice to know ya  
Inhibition is only prescription (Only, only, only, only)  
Tell em I've been out here (I been out here, I been out here)  
I'm on a mission

I think I'm back on my way down, yeah  
To the Earth, to the Earth  
Now baby go let your hair down (Go let your hair down right)  
If you got some yeah  
Show me if you got some

Just can't get caught up (I can't get caught up)  
Won't leave me too much while I'm in this life (While I'm in this life baby)  
This might be my crush always think about it too much (Might be my crush)  
In the evening time, yeah (Think about it too)  
I just can't get caught up  
Caught up (I can't get caught up, hey)  
Won't leave me too much  
Too much  
Just can't get caught up  
Caught up  
Won't leave me too much (Leave too much, hey)  
Just can't get caught up  
Won't leave me too much while I'm in this life  
Yeah
