

Come Thru

Mac Ayres

My car can't stop crashing
I still lead the way
I live for reaction
And I heard you're here to stay
I still lead the way
I still lead the way

I heard how you felt me
The way that you say
Oh girl when I touch it
All you do is say my name
I still lead the way
I still lead the way

Oh I said baby come thru
Like you got nothin' to do
To be alone here with you
Ain't nothing better to do

Oh I said baby come thru
Like you got nothin' to do
To be alone here with you
Ain't nothing better to do
