

Get Away

Mac Ayres

Open up, get yourself
Hurt enough, 'til you say when
Close enough, eyes can't see
Throw my phone, and say I don't need

Because there ain't no feeling like moving forward
But I just can't get you out of my head
And if I'm shooting that thang it's all straight forward
No need for something being misread

And I just wanna get away
It's making it hard for me to stay
Oh, I just wanna get away
What I got going on anyways?
Oh, I just wanna get away
Said I gotta get away from you
Oh, I just wanna get away
I just wanna get away
Oh, I just wanna get away

Said I saw your face, right
Yeah I saw it split in three
Let me get my space
You'd never have to miss me
Never miss me baby

Because there ain't no feeling like moving forward
But I just can't get you out of my head
And if I'm shooting that thang it's all straight forward
No need for something being misread

And I just wanna get away
It's making it hard for me to stay
Oh, I just wanna get away
What I got going on anyways?
Oh, I just wanna get away
Said I gotta get away from you
Oh, I just wanna get away
I just wanna get away
Oh, I just wanna get away

I'm singin'
No, No, No, No, No
No, No, No
I just wanna get away
I'm singin'
No, No, No, No, No
No, No, No
I just wanna get away
