

i bet u callin my name

Mac Ayres

I bet you're calling my name
I bet you're calling my name
I bet you're calling my name
I bet you're calling my name

As much as I need ya
You better hold it back
As much as I want ya
To stay on my track
I hear what you're saying
No need to speak
To think I'm staying
In between the sheets, saying...

I bet you're calling my name
I don't know what I should say
I know exactly what you're feeling but it's all in the same
I bet you're calling my name
I wanna tell you things I could do

I bet you're calling my name
I bet you're calling my name
I bet you're calling my name up
I bet you're calling my name

When you're alone baby
Do you think of me?
Moving my own way
Tell me what do I see

I bet you're calling my name (I bet you calling my name)
I bet you're calling my name (I bet you calling my name)
I bet you're calling my name up
I bet you're calling my name

I bet you're calling my name
I don't know what I should say
I know exactly what you're feeling but it's all in the same
I bet you're calling my name
I wanna tell you things I could do

I bet you're calling my name
I bet you're calling my name
I bet you're calling my name up
I bet you're calling my name

I bet you're calling my name up
I bet you're calling my name
