

If You're Feeling Lost

Mac Ayres

You left your spirits on the fire escape
Still trace my fingers how the smoke was shaped
My words got swept into the wind, then she was gone again
She kept quiet when her thoughts got loud
Now she's left out to dry just for the weekend crowd
Sunday night and no one's home
Could you leave the lights on?

Oh, I'm scared of the things
I'll find along the way
But not enough to make me stay

Oh, I'm scared of the things
I'll find along the way
But not enough to make me stay

Oh, if you're feeling lost
I know you still find a way
I know you still find a way back home

If you're feeling lost
I know you still find a way
I know you still find a way back home

(Oh, oh)
Oh, no, no, no, yeah
(Oh, oh, ooo)

Lost my reflection in the empty sky
I guess out here the stars don't shine so bright
I know, I've seen it all before
At least I hope so

Who are you now that all the curtains closed
Said it's never the end of the show
Singing who are you now that all the curtains closed
It's never the end, the end
It's never the end of the show

Oh, if you're feeling lost
I know you still find a way
I know you still find a way back home

If you're feeling lost
I know you still find a way
I know you still find a way back

I get scared of my thoughts without you
Ain't livin' a life without you
I get scared of the thought that you'll be gone
When the bad thoughts start to take over
Just know that you're that much closer to seeing the sun again
It won't be long, yeah (Long)

Oh If you're feeling lost
I know you still find a way
You still find your way back home

Seen it all before
I know you still find a way
I know you still find a way back home

If you're feeling lost
I know you still find a way
You still find your way back home

Seen it all before, nah, no, no
I know you still find a way
I know you still find a way back home
