

# Lonely

Mac Ayres

Won't fuss about it  
Said I would just give you the key  
I can live without it  
But I like what you're doing for me  
Don't fuss about it  
And let me be on my way  
So quit the shoutin  
Already know what you're going to say

You say  
Don't leave me sleeping here alone  
I get so lonely on my own  
Don't leave me sleeping here alone  
I get so lonely, lonely, lonely

You shot the bullet  
And now it's found its way  
I said I wouldn't  
But I never listened to what I would say  
You are the prison  
I feel like I'm doing time  
You are my reason  
But had never had no rhyme (ain't that right)

You say  
Don't leave me sleeping here alone  
I get so lonely on my own  
Don't leave me sleeping here alone  
I get so lonely, lonely, lonely  
Don't leave me sleeping here alone  
I get so lonely on my own  
Don't leave me sleeping here alone  
I get so lonely, lonely, lonely  
I get so lonely  
I get so lonely  
I get so lonely  
I get so lonely, lonely, lonely  
I get so lonely  
I get so lonely  
I get so lonely  
I get so lonely, lonely, lonely
