

love somebody

Mac Ayres

She says that she's losing religion
She's looking to someone to care
It's safer to say I've been sticking my plan
I know that I'm gone in the morning
Don't think that I'm passing you by
I already know that you are no good at goodbye

So if you love somebody, you want to, oh say it
Come one and love somebody, you want to, just say it
Come one and love somebody, you want to, just say it
Come one and love somebody, you want to, just say it, baby

I'll wait for the morning you calll me
To stay until the afternoon
I'd get it together but there's just
Something about you
Baby, I know what you're feeling like
Tell me that you're almost tired
I just wanna waste my time with you
I don't wanna get in line
Feeling like it's almost time
I just wanna waste my time with you

So if you love somebody, you want to, oh say it
Come one and love somebody, you want to, just say it
Come one and love somebody, you want to, just say it
Come one and love somebody, you want to, just say it, baby

Say it baby
