

# Maybe Not

Mac Ayres

She put me on speakerphone  
And when we get home  
Ashin' on the nightstand  
It's a one nightstand  
Think you left my TV on  
I think you left your license, you should come find it  
Maybe not  
You so indecisive  
I'm so into you  
What you tryna do?

And I finally found  
Finally found what I've been searching for  
Someone like you hard to come by  
So can you come through will you come by?  
Just try it out  
Try it out it might be worth it oh

Something brand new in your love life  
I know it's a bold move will you come by

Something brand new in your love life  
I know it's a bold move will you come by

She put me on speakerphone  
And when we get home  
Ashin' on the nightstand  
It's a one nightstand  
Think you left my TV on  
I think you left your license, you should come find it  
Maybe not  
You so indecisive  
I'm so into you  
What you tryna do?

Said it's bout time that u made it up where we on  
Put me in the game I feel like I'm the reliever  
I'll put you onto something that you don't know  
But she just wanna be the one to say so  
Every time

I said could you meet me where the flowers can grow?  
I had my life in motion and it started to slow  
I guess some things are ever changing  
But then again they never change, shit

I finally found  
Finally found something worth chasing  
Baby it's you  
I been leaving space yeah  
I been tryna get close to your situation

But tell me how every time, every time, every time  
It's only me waiting on you girl  
It's only me waiting on you girl

She put me on speakerphone

And when we get home  
Ashin' on the nightstand  
It's a one nightstand  
Think you left my TV on  
I think you left your license, you should come find it  
Maybe not  
You so indecisive  
I'm so into you  
What you tryna do?
