

# Nothing Else

Mac Ayres

She got a way to make it go  
Things that I heard but hadn't seen  
Got to the point I didn't know  
I saw your eyes turning green

If you wanted nothing else from me  
I would pack my things and leave, honey  
Just tell me what to do  
Tell me what to do with your love  
If there's nothing left to see, honey  
We could turn around and let it be, honey  
Just tell me what to do  
Tell me what to do  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say

Told you that I had to borrow time  
Just didn't wanna make a scene  
Never one to see it as a crime  
Guess that I'm the one that does the deed

If you wanted nothing else from me  
I would pack my things and leave, honey  
Just tell me what to do  
Tell me what to do with your love  
If there's nothing left to see, honey  
We could turn around and let it be, honey  
Just tell me what to do  
Tell me what to do  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say  
By the time that you hear this imma need two more shots and a witness, oh  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say  
She don't love the way  
I just won't let things go once for a change  
She don't love the way  
Don't only say what I mean but I mean what I say
