

Roses

Mac Ayres

Get this out the way, babe
Tell me that you're only human
I've made my mistake
Act like I know what I'm doing

And I was thinking 'bout this, and you ruin all sips
Like it was a bad thing
And I was thinking about its, and now we're hitting that switch
Oh you will see becoming in the dark

Passing out there, better the roses
Lady so bad, just like I show it
(Ooh you've got to let it show it)
Oh you've got to let it show it
Once in a while, It's just the beginning
You on my mind, as long as I'm living
(Ooh you've got to let it show it)
Oh you've got to let her know it, hey

And I couldn't sold her this
Something that you never ever have
I'm a lot of things
I still get my ways

Passing out there, better the roses
Lady so bad, just like I show it
(Ooh you've got to let it show it)
Oh you've got to let it show it, yeah
Once in a while, It's just the beginning
You on my mind, as long as I'm living
(Ooh you've got to let it show it)
Oh you've got to let her know it
Hey

Hey, hey, hey

Well I wanna say, she don't like dancing alone
Come on and say, some I don't already know
Touching aside, hey did you got it gate
Knowing up right, when you will start this race, babe
Well I wanna say she don't like dancing alone
Come on and say, some I don't already know
