

## somebody new

Mac Ayres

If you don't see me now  
Go on tell me how you wasn't looking  
Faces in the crowd  
Promised and I vowed I know I shouldn't  
Maybe it's alright  
For just one night, away  
Maybe my phone rang  
I left it somewhere  
I would never stay

Say you don't, and I'll say whether  
We're alone or we're together  
Baby, you know that I've got you  
Tell me now and I'll say never  
Baby just don't say forever  
Cause no way that that's gonna do  
Cause I'd rather spend it with somebody new

Crumbled and I'm broke  
Got lost in the smoke around my faith  
Say I'm doing fine  
But really I can't find the words to say  
Maybe it's all good  
Know that I shouldn't have stayed  
Maybe the time's right  
For me to take flight, have a chance to take

Say you don't, and I'll say whether  
We're alone or we're together  
Baby, you know that I've got you  
Tell me now and I'll say never  
Baby just don't say forever  
Cause no way that that's gonna do  
Cause I'd rather spend it with somebody new

How you gonna give away your right to where you're going  
And how'd you always get  
From where we're at  
To where we've been

Say you don't, and I'll say whether  
We're alone or we're together  
Baby, you know that I've got you  
Tell me now and I'll say never  
Baby just don't say forever  
Cause no way that that's gonna do  
Cause I'd rather spend it with somebody new
