

Stay

Mac Ayres

Something's in the water, something's in the rain
Coulda gone forgotten, but some things don't ever change
Coulda seen you shinin', you've been in the shade
Won't you please remind me of just what it's gonna take

Tell me you're almost back home (almost back home)
Don't wanna sleep here alone

What I've been saying, baby, is what I'm saying to you
Making you stay, baby, that's all I'm trying to do
What I've been saying, baby, is what I'm saying to you
Making you stay, baby, that's all I'm trying to do

Something's in the mirror, it's getting in my way
I could almost feel you, but how could I stay away
Tell me how I'd stay away

What I've been saying, baby, is what I'm saying to you
Making you stay, baby, that's all I'm trying to do
What I've been saying, baby, is what I'm saying to you
Making you stay, baby, that's all I'm trying to do

Where you might belong
The chances I take
Where you might belong
I'm saving some space
Where you might belong
Where we take our time
Where you might belong

Where you might belong
The chances I take
Where you might belong
I'm saving some space
Where you might belong
Where we take our time
Where you might belong (where you might belong)
