

# Waiting

Mac Ayres

Cry for me  
I hear you so  
Up against the breeze  
But moving alone  
I take it back  
All that you gave me, babe  
I got my pack  
It's about to save me, alright yeah

Now watch me take that thing from your wrist  
Tell you what time it is, find myself in the midst  
To something bigger than myself  
Something bigger than ourselves, right

And no more hesitating (and no more hesitating)  
I wanna say I made it (I wanna say I made it)  
Tell me what have I been waiting (what have I been waiting)  
All my life, yeah  
And no more hesitating (and no more hesitating)  
I wanna say I made it (I wanna say I made it)  
Tell me what have I been waiting (what have I been waiting)  
All my life, yeah

Say what you want  
No sense in numbers  
'Cause that ain't how  
Those [?] might slumber, yeah right

Now watch me take that thing from your wrist  
Tell you what time it is, find myself in the midst  
To something bigger than myself (bigger than myself)  
Something bigger than ourselves, right

And no more hesitating (and no more hesitating)  
I wanna say I made it (I wanna say I made it)  
Tell me what have I been waiting (what have I been waiting)  
All my life, yeah  
And no more hesitating (and no more hesitating)  
I wanna say I made it (I wanna say I made it)  
Tell me what have I been waiting (what have I been waiting)  
All my life, yeah

And no more hesitating (and no more hesitating)  
There'll be no more hesitating  
I wanna say I made it (I wanna say I made it)  
I wanna see I made it  
Tell me what have I been waiting (what have I been waiting)  
Tell me what I've been waiting  
All my life, yeah  
All my life

And no more hesitating  
Last year everybody had their doubts  
This every single shows sold out  
I wanna say I made it  
Let me in my space, oh yeah, let me in my space  
Tell me what have I been waiting (I'm waiting)

When you see me at private south  
If you never knew by know you know  
All my life  
Let me in my space, oh yeah, let me in my space

And no more hesitating (no more hesitating)  
Last year everybody had their doubts  
This every single shows sold out  
I wanna say I made it (I just wanna see)  
Let me in my space, oh yeah, let me in my space  
Tell me what have I been waiting (ooh)  
When you see me at private south  
If you never knew, by know you know  
All my life  
Let me in my space, oh yeah, let me in my space

And no more hesitating (no more hesitating)  
Last year everybody had their doubts  
This every single shows sold out  
I wanna say I made it (I wanna say I made it)  
Let me in my space, oh yeah, let me in my space  
Tell me what have I been waiting (what have I been waiting)  
When you see me at private south  
If you never knew, by know you know  
All my life  
Let me in my space, oh yeah, let me in my space
