

A Little Less Conversation

Mac Davis

A little less conversation, a little more action please
All this aggravation ain't satisfactionin' me

A little more bite and a little less bark
A little less fightin', a little more spark
Shut your mouth and open up your heart
Baby satisfy me, satisfy me

I work hard all day long to please you
Treat you just like a queen
When I come home you just runnin' your mouth
Baby you ain't seen a doggone thing

A little more bite and a little less bark
A little less fightin', a little more spark
Shut your mouth and open up your heart
Baby satisfy me, satisfy me

Come on baby I'm tired of talkin'
Put your snow clothes on and let's start walkin'
Come on, come on, come on
Don't procrastinate
Don't articulate
Woman it's gettin' late
You just sittin' waitin' 'round

A little less conversation, a little more action please
All this aggravation ain't satisfactionin' me

A little more bite and a little less bark
A little less fightin', a little more spark
Shut your mouth and open up your heart
Baby satisfy me, satisfy me
Satisfy your man, child
Satisfy me, satisfy me

A little less conversation, a little more action please
All this aggravation ain't satisfactionin' me
