

Stratocastor  
Played me that one you used to play  
Doesn't matter  
My heart belongs to yesterday

Just  
Me and you and moonlight  
Me and you and moon  
Your song ends too soon

Live below no master  
And all of your troubles blow away  
Hold my stratocastor  
Play me that one we used to play

Just  
Me and you and moonlight  
Me and you and moon  
Your song ends too soon
