

Hennessy

Mac Dre

Yeah

You done brought your bath-water-less body parts

Your ugly bitch

But you ain't brought no Hennessy, man

And when you did bring the Hennessy

It was the one with pork in it

We don't drink pork, bitch

Privilege Heem a pop

[Mac Dre:] But did you bring that Hennessy

[Miami the Most:] But did you bring that Hennessy

[Mac Dre:] But did you bring that Hennessy

[Both:] But did you bring that Hennessy

I met mamacita in a taqueria

Half Selena, half Aaliyah

Mixed little thang with a sexy little swing

Got on the dame like Ichabod Crane

Started spittin' game, mayne, I got words

Rap your ear off til I get on your nerves

I'll say somethin' a notch never heard

Like, "I'm fly as the wings on a hummingbird"

What you runnin' for, girl? I don't bite

Let the game hit a bitch; chicks, I don't fight

I don't got all night, get ya thing together

Tell your guy "bye"; get some brain together

I mean, it's whatever, I don't see no limits

To be the biggest thing since the fall of the Nimitz

Get yards like Emmitt from here to Tennessee

And oh yeah, baby, bring that Hennessy

I brought that hoe, slim chicks and bad hoes

And Backwood blunts for the tobacco

(But did you bring that Hennessy?)

Three kegs, freaks that give head

Treats and beach beats, petites and big legs

(But did you bring that Hennessy?)

I brought that hoe, slim chicks and bad hoes

And Backwood blunts for the tobacco

(But did you bring that Hennessy?)

Three kegs, freaks that give head

Treats and beach beats, petites and big legs

(But did you bring that Hennessy?)

I got a master plan, I got some hash in hand

Comin' straight from a coffee shop in Amsterdam

And I don't give a fuck, somebody split the blunts

My currency like some surgery, it's Nip and Tuck

Mr. Ed gettin' head in the back of the S-U

I'm a bring my cousin, but I'm shakin' my nephew

And you can even ask my agent

He gon' tell you this, "Ronnie Rey's impatient

And he's so flagrant, ready for liftoff

Yeah, you know they love it when he's dustin' his kicks off"

Mayne, I'm higher than a fire escape, I got the munchies

With seventeen topless models from different countries

And don't let me start to vaporizin'

And thrust me a chick on the horizon
She swear she love the way I'm grindin'
That Privilege Heem is tantalizin'

I brought that hoe, slim chicks and bad hoes
And Backwood blunts for the tobacco
(But did you bring that Hennessy?)
Three kegs, freaks that give head
Treats and beach beats, petites and big legs
(But did you bring that Hennessy?)

Now when I walked out the cab, I jumped in my Caddy
And told my mayne hutch, "Hoe, get at me"
I stepped on the gas, let off the break
I'm in the V-Town, playboy, there's money to make
I hit the liquor store and cop a fifth
I seen Cadillac Ronnie and Andre Hicks
There ain't nothin' but real bad broads all over
Tryin' to get me to come and park the Rover
Stepped out the load in my Oakland Raider
Black Kangol, grey alligator
Stuntin' like, a million bills
I asked baby, "Has she ever stacked scroll in heels"
'Cause if she wanna, hit the corner, we can take over California
Don't trip, I'm born to mack
Half tank of grey, half cognac

I brought that hoe, slim chicks and bad hoes
And Backwood blunts for the tobacco
(But did you bring that Hennessy?)
Three kegs, freaks that give head
Treats and beach beats, petites and big legs
(But did you bring that Hennessy?)

Man, I'd rather you bring the Heem
Than your funky ass, your ugly bitch
Your bad karma, or your broke ass mama
And we gon' bring the Hennessy
And not the one with pork in it
And this is MigElegante
And I'm out
Yahtzee!
