

# Make You Mine

Mac Dre

Something about what you've done to me baby I wanna make you mine  
You really bring out the best in me baby can I make you mine

I went bad on a bitch but I don't love her  
She want an apology but I ain't Rueben Studdard  
I'm buttered so she jock me style  
She buttered but she not me style  
She don't got it and she ain't trying to have it  
Man I'm lavish and got expensive habits  
If I stab it what can she offer  
Naw sir dreezy ain't gon toss her  
And she thick to but I dont want her yokes  
I want all her federal reserve notes  
I'm better with no hoes over a broke one  
I'll take the ugliest bitch in Oakland  
And come through yokin Chucky Cheesed up  
You broke bitches got me fucked up  
I'm a rich nigga I got lawyers  
You broke I cant do nothin but ignore ya

Something about what you've done to me baby I wanna make you mine  
You really bring out the best in me baby can I make you mine

## Lyrics

This crazy motherfucker wanna be my chick  
Always trying to fuck and suck my dick  
I won't happen you ain't got no mail  
You ain't got a snowballs chance in hell  
I'm from Vallejo where most niggaz is pimps  
We eat butterfly tiger prawns not scrimps  
On the other side of the fence is what's crackin'  
Can you detect some slackin' in my mackin?  
You can't try it unless you buy it  
Broke bitch got my dick on a diet  
Can't fuck on her and no I don't want her  
This is O.J. Simpson pimping not homer

Something about what you've done to me baby I wanna make you mine  
You really bring out the best in me baby can I make you mine

She trying to makeme hers  
But I can't be hers  
Unless I'm goosing her for chips and I'm taking hers  
Trying to live so fat I gotta watch calories  
It's all about a salary and that's reality  
I'm a book you shouldn'y judge by its cover hoe  
I been getting doe since Young Black Brother hoe  
I'm a brother that can make things happen  
Jacking acting macking rapping  
Let's get it crackin get the slacking out  
Everyday I blow a half an ounce  
I like to smash and bounce in all new whips  
What can we do if you ain't got a few chips?  
Take a few sips of this game I poured  
It's money in these streets and it can't be ignored  
It's money in these streets and it can't be ignored

Something about what you've done to me baby I wanna make you mine  
You really bring out the best in me baby can I make you mine
