

# Japanese Sunset

Mac Lethal

Listen to me doc, I'll do it with the grin  
I write the song, then I'll commit seppuku with my pen  
It's raining in Japan, the thunder cries and hums  
The sky is red, I swear to God there's blood inside the sun, uh  
I can't feel a thing, everything is numb  
This blade is probably sharp enough to sever off my tongue  
It's snowing here in Tokyo, autumn is a blizz  
When I die, plant a cherry blossom on my grave, uh  
If I had a single, a single little wish  
I wouldn't spend it on expensive things and getting rich  
If I had a single, a single little wish  
I would just bring back all the people that I miss  
I've lost a lot of loved ones, family and friends  
Some I walked away from, 'cause the damage didn't end  
A couple even tried to bite the hand that I'd extend  
Or they told me that they love me, then they vanished once again, uh

I just wanna lay with you and hold you as I die  
Underneath the sunset of the Hiroshima's sky  
Lanterns in the water burning as they floating by  
Tell you that I love you one last time, then say goodbye (Then say goodbye)  
I just wanna lay with you and hold you as I die  
Underneath the sunset of the red Kyoto's sky (Red Kyoto's sky)  
Lanterns in the water burning as they washing fire  
I never overdosed on drugs, but I overdosed on life

The worst year of my life was 2020, man for sure  
My wife told me that she doesn't want me anymore  
She rather go to court and have custody battles  
And spend her life, always feeling like her husband's an asshole  
I could have been defensive, been like "Jeez, what a bitch!"  
But I clearly had a couple things I needed to fix  
I didn't think that therapy would really help  
But I was wrong, it's giving clarity and mental health  
Then out of nowhere, Info died, I'm still in fuckin' shock!  
Like really he's dead?  
I was sitting at the funeral with Emily's head on my shoulder  
Rest of the fuckin' tragic energy spread  
Then my doctor committed suicide just a week later  
Her son found her, he's just a teenager  
I saw her like two days before  
She told me that depression is something you can't ignore  
No shit!  
Then Georgia was murdered by her husband  
I swear to God, I'm losing my grip, I'm fuckin' bugging  
Then EMC died I didn't say goodbye or hug him  
Why couldn't I just have another chance to say I love them  
And then my father needed triple bypass  
And I'm just at drowning my sorrows inside a wine glass  
Then the country shut down and all of my tours were cancelled  
Everything but pain is at a standstill

I just wanna lay with you and hold you as I got you (As I got you)  
Underneath the sunset of the Hiroshima's sky  
Lanterns in the water burning as they floating by  
Tell you that I love you one last time, then say goodbye (Then say goodbye)  
I just wanna lay with you and hold you as I die

Underneath the sunset of the red Kyoto's sky (Red Kyoto's sky)  
Lanterns in the water burning as they washing fire  
I never overdosed on drugs, but I overdosed on life
