

## Love Potion

Mac Lethal

(Eat a pelican and sit yo ass down)

Yo..yo

Attack of the 50-foot teddy bear  
Holding a lumberjack axe and a picture of Oprah  
I got a three headed fiance with seven eyes  
Incubating dinosaur eggs under the sofa  
One fifty one, Malibu rum  
Gather the blood in the tip of a black and blue tongue  
Werewolf mixture flush it out the beaker  
Til the alcoholic ectoplasm gushes out the speaker  
From my dunhills to the duck billed platypuses  
About to spray the flesh fire hose up at the bushes  
Swindle thinkin I'm an educated writer  
I'll get you bitten by a thousand metal-plated spiders  
In the face  
Yeah bitch, I bust in yourself on the phone like  
"Yoko you touchin yourself?"  
And she's like "ummm no?" "Oh"  
Yeah  
Murderous moves inverted the grooves
