

## Santa Raps So Fast!!!

Mac Lethal

I'm coming down the chimney like I'm Santa with an AK47  
If you're naughty then I'm taking all your presents  
It's December the 25th and if you're building in the way you should  
I'm giving a couple gifts to all the children in your neighborhood  
Unless you know somebody that's a rotten fucker  
Then you better just believe that I'ma show at Christmas Eve  
And then I'm gonna give their mom a muffler  
As a stocking stuffer  
Damn it, kid, I'm standing with an AK47 in the middle of the city  
Where the criminals are gritty and they're tough!  
Gotta entreprise a little bit and own a company  
Cuz slaving for the man and making pennies ain't enough  
It's Christmas but fuck your wish list cuz you're already gifted!  
So give yourself independence and start your own business!  
Gotta hustle with a vengeance here is some motivation  
You may need and it's too damn true  
Lil Wayne is only 5'5 mothafucka  
If he can be successful then you can too!  
You know I'm high up on the trees like an angel  
I be rippin' to the rhythm of the sleigh bells  
I don't care about a person saying they're a Rap God  
Cuz when you're underground you gotta face hell  
Just what I enjoy little drummer boy  
Barum ba bum bum man, it is such a joy  
When I'm going dumb da dumb I shoot a missile and destroy  
Finding the work and finding a purpose like a kid that's unemployed  
I'm drunk Santa Clause I just drank a fifth  
Getting crazier than Jaden Smith  
So you can tell The Grinch I put some mistletoe above my ass  
And now he knows where to place his lips  
Check it out, I'm vaping marijuana cuz it centers me  
Is giving me the energy to rip the beat up vividly  
And even when I'm 63 and when the air is so polluted  
That it makes you sick to breathe I'll prolly be a sick MC  
The sickest in the history of anything I went to war with 50 kings  
And ate the planet Saturn in a single bite and sniffed the rings  
You gotta take some shrooms and try to smoke dimethyltryptamine  
To see a vision this incredible the devil in your dreams  
I'm bigger than the universe, I'm infinite like human thirst  
For water and like water from the glaciers I consume the Earth  
They call me Lethal Clause and I'm the fastest in the world  
I got your grandpa some golf clubs, your grandma some pearls  
Baby now you know I got the rhymin' stamina  
Kill you while you shittin' like you Tywin Lannister  
I don't wanne have to go and damage your entire face  
Peace I'm out back up the fire place!
