

Single White Female

Mac Lethal

I got a little story bout a single white female
Her name is Tammy, but you'll need some fine details
She gets up on the internet and argues with strangers
Cuz inside she's full of insecurity and anger
She tries to be edgy, that's rap ploy
But back in the days she was a frat boy
She says everybody hates her, but no one even cares
So now I'm gonna grab the bitch and throw her by the hair
Single white female, it's time to make the jay burn
Where's your fucking balls, bitch? You acting like you Greyworm
How you gonna let a lil Tweet hurt your feelings
Did I bruise your ego little girl, what are you revealing?
Your whole fucking gimmick is
Claiming everybody's too p.c. and sensitive
So why you on some victim shit?
If somebody don't like you, that shit straight troubles you
Why the fuck you acting like an S.J.W.?
You're rapping like you wanna Make America Great Again
But you're not even American, Tammy, you're Canadian
You live in the safest fucking country in the world
And you act like you're oppressed?
Man you're such a little girl
Speaking of little girls, you wanna diss my daughter?
Damn that's a cheap shot, that's so damn disgusting man
Well I can throw cheap shots too
Let's talk about the fact your girlfriend used to suck off R.A. the Ruggedman
You wanna say I'm rapping filler?
Your girl is a King of the Dot groupie who be letting rappers fill her
We got mutual friends, they gave me dirt, these are facts:
Your girlfriend ghostwrites half your raps!
On YouTube, the biggest video of mine
Has more views than ALL your fucking videos combined
Speaking of YouTube...
You claim that I'm irrelevant
I got 2 million more fucking subscribers than you do
You wear women's clothes and Nicki Minaj braids
Cuz you gotta hide the fact that you secretly got AIDS
You think that I'm not paid? Silly bitch I'm a millionaire
You want proof? Meet me at the bank and I'm a kill you there
White on White violence. Damn it's snowing
You're the fucking rap equivalent of Candace Owens
I heard you block people on Twitter
Because they told you Mac Lethal is bigger
Sweet Jesus you're bitter!
What's the matter LeLe Pons?
Did my "Lethal Injection" get stuck in your vajayjay wrong?
Aww what's the matter Methlemore?
You need another stupid white boy gimmick to move some units out the record store?
You're not a lyricist, you're not controversial
No one is offended by you and that really hurts you bro
You lie about your height, you're not 6'5 you little man
You look like Kid Rock had a meth baby with Lil Xan
You look like Lil Pump had a crack baby with Bhad Babie
What's the matter Elsa, why you acting sad lately?
I'm a martial artist. You fake wrestle bitch

You aren't The Man, but you do look like Becky Lynch

In your diss song you tried to say that I was gay? Right
You're the motherfucker that be dressing up in grey tights
So you can other half naked men can fucking play fight
You just need an excuse to lay there and take pipe
In America, "hog" is another word for dick
Which is the reason that you have it tatted underneath your lip
Cuz you love dick bro, you give enough head
You wear nail-polish motherfucker, NUFF SAID
You ain't skilled, be quiet
You look like Billie Eilish did too many pills
And got filled with violence then killed her stylist
I heard your diss bitch, I ain't bust a sweat
You dissed ICP, homie your girls a Juggalette
You say I'm in my 30s like that shit is a bad thing
I'm healthy and I'm rich and I'm living my rap dreams
My kids go to a nice private school
I got a sick fucking house, I own my own pool
How the fuck you gonna try to say I'm having an identity crises?
You're a 30 year old man dressing like this
I wear normal clothes
I don't need controversy and shock value
I grab the mic and pour my soul
Let this shit be a lesson in how you thirst fame
From here on out your name is infinitely cursed mane
Cuz if you say your last name, you have to say my first name
Bitch my fucking rap name is in your fucking birth name
