Mac Lethal

Chop me up another line  
Fast, I could never be high class  
You can tell when I go out to dinner and get a hundred dollar merlot and guz  
zle on my wine glass  
Got a lot of demons that are jumping out of my path, like hey there  
You don't go to hell, man your born in hell  
And if your sick in your heart you fuckin' stay there  
Two cubes of ice and glenlivet in my glass  
I'm all over the game, I ain't just in it for the cash  
Even though I'm gonna die in the future I gotta stop living in the past or m  
y enemies will pass me  
Devil all in my nostril, angel all on my shoulder  
Taking drugs it feels fake as fuck I guess wake me up when its over  
Yo my baby mama through me out the car last week  
Tonight we met up at the bar for a drink just to work things out within minu  
tes we were fucking in my car back seat wooh!  
I took a shot to the head in front of my bitch  
Like John to the Kennedy F  
I stay calm through the misery yes  
I'm in the court room gone with the Hennessy breath  
Like fuck you, your honour  
I'm made of flesh I'm made of blood I'm made of water  
And some alcoholism you know I got it from my mother  
I just hate everybody you know I got it from my father  
I'm just smoking on a bowl of medicinal marijuana  
Time and time again I just sit around too patiently waiting for the weekend,  
just thinkin'  
Its almost 5pm, I better start drinking ok!

[x2]

It makes no difference, makes no difference  
Fuck it I'm getting twisted  
Makes no difference, makes no difference  
Fuck it I'm getting twisted  
Makes no difference, makes no difference  
Fuck it I'm getting twisted  
I should probably die alone cause I'm impossible to live with

Yea my name is David, but the people that know me in real life know not to c  
all me that  
They just call me Mac and they know that nine times out of ten if they call  
I will call them back  
No stories no excuses, no pretending that my phones dead  
I don't give a fuck about your problems I'm just living in my own head  
I don't want to over-complicate shit  
Use a knife when you want that face-lift  
Did you buy that Louis bag for your bitch cause you want to act rich or caus  
e you want to act basic?  
Still making rap beats in the basement  
Taking blue pills in that matrix  
If you ever feel like life is confusing remember [?] will make the entire un  
iverse make sense  
The night I impregnated my wife with my son I ate a bunch of pot  
Now hes 3 years old and now his IQ is high as fuck and every picture that he  
paints is incredible  
It ain't no mystery its true, you take your imagination to a place that it n  
ever been to

In the foreign ass world and it turns a little bit new, a little bit new  
I am a believer in the universe and [?] so I wish that I can move away to Ju  
piter tomorrow  
And just to get the fuck away from other people on the planet  
Man my day was just romantic [?] the people in Atlantis  
Time and time again I just sit around too patiently waiting for the weekend,  
just thinkin'  
Its almost 5 p.m., I better start drinking, ok!
