

Wooooo!!!!!!!

Mac Lethal

I used to say today sucks I hope it gets better  
Now, I think life is like the dopest shit ever  
My girl's off work, got her out of her sweater  
And then we took a hot shower together  
Steamy!

Yo, uh  
See I've been thinking  
A little too much from all the coffee I've been drinking  
But really I've been thinking  
It seems that the list of my admirers is shrinking  
I'm pretty sure I'm gonna spend half my life sleeping, forever  
People only discuss the weather when they're bored of small talk  
And can't spit something better  
I measure my friendships and leave if the drama never stops  
Or the need for the pressure is endless  
My sleeves are rolled up  
I don't wanna rap this part  
Speed up for the cake like a fat kid's heart  
Speed up, hit the brakes, leave a black skid mark  
Motherfucker this is passionate art  
And I'm still getting bread though I get bread and crumbs  
Gonna have Alexis Coop before it's all said and done  
I don't love these hoes  
I just love a girl that wants me to be comfortable  
I'm so lovable

I'll be your knight in shining armor in your armor in the shining night  
I'm making use of my entire life  
The only thing I ever wanted to be is the best damn version of  
Me that I could be, now I  
Wooooo!!!  
I'm gonna win at life baby, I'm gonna win at life baby, I'm in the lead  
Wooooo!!!  
I'm gonna win at life baby, I'm gonna win at life baby, I'm in the lead

I'm feeling like a bob white  
Singing the name of my species  
Human, angel, halo, king me  
Knee deep in idioms  
On a 1920s old indian  
I'm the pimp of the millenium  
Yeah bitch, we about to go ham sandwich  
You see I get money  
But then I reinvest money  
All the people that blow money, you're just dumbies  
Here's some free advice  
Every 10 dollars that you get  
Take 7 dollars of that shit and put it away  
Right up in the bank, don't you touch it  
Now you never gotta worry about being over budget  
You spending all your money on alchol and coke  
And got the nerve to wonder why you're broke  
Man stop, man quit  
A DUI is 2000 dollars you don't even wanna chance it

I'll be your knight in shining armor in your armor in the shining night

I'm making use of my entire life  
The only thing I ever wanted to be is the best damn version of  
Me that I could be, now I  
Wooooo!!!  
I'm gonna win at life baby, I'm gonna win at life baby, I'm in the lead

I used to say today sucks I hope it gets better  
Now, I think life is like the dopest shit ever  
My girl's off work, I got her out of her sweater  
And took a hot steamy shower together, my god  
I could swallow a rubix cube and shit it out solved  
But I could never live without y'all  
The black clover Mac Lethal fans  
Uh, white people move awkwardly to my music and black people dance  
Either way it's all good, all great, all fun  
Just don't marry the wrong one  
You see my dad used to tell me  
The best divorce happens before the marriage even takes place  
So get healthy and log off of match dot com  
Go outside and say hello to the first pretty ass hot mom that you see  
Get a date for tonight, and if she's good shit make her your wife  
It's Uncle Mac baby!

I'll be your knight in shining armor in your armor in the shining night  
I'm making use of my entire life  
The only thing I ever wanted to be is the best damn version of
