

Look at me, do I look at all like you  
I don't belong here as hard as I try to  
I'm not the same, doesn't matter what I do  
Not to say that I'm more serene, better  
I imitate what I see to the letter  
People here ask me what is the matter

I think I'm an alien  
Is that what's wrong with me?  
I'm an alien?  
As far as I can see I am the only one  
Can it be, I'm an alien?

People here got the multiple faces  
Keep their hearts in the practical places  
Give their love on a tactical basis  
Put their faith in the weed of their neighbor  
Want the world for the fruit of their labor  
Live and die for the pieces of paper

I think I'm an alien  
Is that what's wrong with me?  
I'm an alien?  
As far as I can see I am the only one  
Can it be, I'm an alien?

Who can believe what's happening  
Everyone here wants everything  
Somebody hurts somebody  
But it's me that feel the pain

I think I'm an alien  
Is that what's wrong with me?  
I'm an alien?  
As far as I can see I am the only one  
Can it be, I'm an alien?

Is that what's wrong with me?  
I'm an alien?  
As far as I can see I am the only one  
Can it be, I'm an alien?
