

# Big Disappointment

Mac McAnally

First Christmas I remember beneath that Christmas tree  
Was everything I asked for, wrapped up and bought for me  
It was a big disappointment, turned out to be  
One big disappointment for me

One day I played the lottery, I thought it might be fun  
Now, I'll spare the boring details, just suffice to say I won  
And what a big disappointment, turned out to be  
One big disappointment for me

If I'd known that all those dreams were coming true  
I might have dreamed a better dream or two  
Oh yeah, dream on

Oh well, I found a cure for cancer and I cured the common cold  
Felt about the same as when I won the Superbowl  
It was a big disappointment, turned out to be  
One big disappointment for me

I dated supermodels and I won the Nobel prize  
I ran nations and religions by the time I realized  
It was a big disappointment, turned out to be  
A big disappointment for me

Old Solomon said all his vanity  
And whoever said to be or not to be  
Got one big disappointment

And when I found my one true love  
So precious and divine  
Lived happy ever after all twenty-seven times  
And what a big disappointment, turned out to be  
A big disappointment for me

Have pity on a working man  
Unschooled and unrefined  
So unsophisticated that he's happy all the time  
And what a big disappointment that has to be  
One big disappointment  
An extremely big, real big, very big disappointment
