

## Mac McAnally: Unresolved

Mac McAnally

Would you see when you're a child  
You say you never will forget  
And Daddy said, he'd just be gone a while  
And he ain't come back yet  
I never did know who to blame  
I hold out hope just the same

It's what I want for Christmas, what I wish upon a star  
I blow out all the candles on every birthday so far  
And when I lay me down to sleep I pray  
My year's resolution every new year's day is unresolved

I try to get on with my life  
And I've done alright, I guess  
A father, mother, husband, wife  
The words start to mean a little bit less  
Count the ways that I've been blessed  
I know this is for the best

But what I want for Christmas, what I wish upon a star  
I blow out all the candles on every birthday so far  
When I lay me down to sleep I pray  
And my year's resolution every new year's day is unresolved

What I had and what I have  
Might not seem so different  
Of what I picture of my family

It's what I want for Christmas, what I wish upon a star  
I blow out all the candles on every birthday so far  
And when I lay me down to sleep I pray  
And my year's resolution every new year's day is unresolved  
It's unresolved
