

# With A Straight Face

Mac McAnally

They dressed her up in lace and curls  
All the things she wasn't  
Taught her life was not much more  
Than looking for a husband  
With a straight face  
With a straight face

Friends are playing Barbie dolls  
She doesn't feel so normal  
Picture from the senior prom  
The gown was big and formal  
With a straight face  
With a straight face

The family name, you ought to be ashamed  
Your father yelled, your mother prayed  
They mean well, they're tryin' to fix your soul  
Or they're trying to get you laid  
Or they just roll their eyes  
Like you're not something God made  
With a straight face

The neighbors called him "mamma's boy"  
He wants to be a dancer  
Questions they don't want to ask  
He's afraid to answer  
With a straight face  
With a straight face

His friends are playing Superman  
He pretends he's normal  
Picture from the senior prom  
The smile was big and formal  
With a straight face  
With a straight face

The family name, you ought to be ashamed  
Your father yelled, your mother prayed  
They mean well, they're tryin' to fix your soul  
Or they're trying to get you laid  
Or they just roll their eyes  
Like you're not something God made  
With a straight face
