We are just waiting, things changin'  
I've been so patient, please save me  
I think when they all have the answers  
If you would share them, amazing  
(Whoa, whoa, whoa)  
Do you believe in love?  
(Whoa, whoa, whoa)  
Do you believe in love?  
I found a place to vacation  
Inside my hallucination  
Let's talk just a conversation  
Tell me what gotchu frustrated?  
(Whoa, whoa, whoa)  
Do you believe in love?  
(Whoa, whoa, whoa)  
Do you believe in love?

Yeah, lily pads on the water  
Uh, rose petals on the ground  
Yeah, I been prayin' to the Father  
He, pick me up when I'm down  
Yeah, think fast or don't think it all  
I, drown my sorrows in the alcohol  
I, I been lookin' for a job  
But there ain't shit around so I'm leavin' this town tomorrow  
With a backpack full of dreams  
Bunch of bad bitches that audition for the team  
Yeah, she said she could've been a queen  
If papa was a doctor and mama wasn't a fiend  
In that case, I coulda been a genius  
I'ma start livin' as soon as I find a reason  
Yeah, it's a cycle of seasons  
Life would be good if Michael was still breathin'  
Yeah, God bless the dead  
Give me the strength to find sleep when I rest my head  
Catch my breath, sex with equestrians  
'Cause God ain't shit but a pedestrian  
Yeah, lessons learned and words ignored  
Stomp your feet, it hurts the floor  
The idea was mine, but the words were yours  
Baby girl said the world is yours

We are just waiting, things changin'  
I've been so patient, please save me  
I think when they all have the answers  
If you would share them, amazing  
(Whoa, whoa, whoa)

Do you believe in love?

Love is a miracle, my love  
Love is a miracle, my love  
Love is a miracle, my love  
Love is a miracle, my love  
Oh my god, oh my god  
Oh my god, oh my god  
Oh my god, oh my god  
Oh my god, oh my god

Yeah, well, drownin' in the universe around us  
We were far away, never found us  
I been thinkin', drinkin', thinkin', doin'  
Life is so much more, let's keep it movin'  
Look at all the dreams that we pursuin'  
Step into my life and leave it ruined  
Freedom sings a song, it's out of tune  
And, try to follow along  
They, told us a lot of rules all of them wrong  
She don't love you no more then you got to move on  
Hold on to them lies, she tells  
How have you been, can you find yourself?  
Lost in equation, a lot of frustration  
Mind racin', time wastin', I'm facin'  
Yeah, this a mirror with a fist up  
Right trigger, A-B, uppercut, kick, punch

We are just waiting, things changin'  
I've been so patient, please save me  
I think when they all have the answers  
If you would share them, amazing  
(Whoa, whoa, whoa)  
Do you believe in love?
